Sub:- recommendations/suggestions from Wild Orissa during the Round Table Dialogue on 'Environmental Governance in the context of sustainable development in India: The case of Plateau and Hills'

Ref:- round table dialogue on 'Environmental Governance in the context of sustainable development in India: The case of Plateau and Hills' during the latter half of 2013 at Bangalore

Sir,

The Energy and Resources Institute (TERI), in partnership with the Konrad-Adenauer-Stiftung (KAS), organized a round table dialogue on 'Environmental Governance in the context of sustainable development in India: The case of Plateau and Hills' during the latter half of 2013 at Bangalore. This was the fourth in a series of five stakeholder dialogues that focused on different geographical zones. The first such dialogue was conducted in Shimla focusing on the mountain region of India, the second focusing on the desert region at Jodhpur and the third focusing on the coastal region and marine environment at Goa. This round table aimed to highlight environmental issues and challenges specific to the plateaus and hilly region of the country and identified and engaged with multiple viewpoints on environmental governance for sustainable development of the region.

Wild Orissa was invited for the Round Table Dialogue on Environmental Governance in Hills and Plateaus. Some suggestions/recommendations were submitted by us during this event, which are enclosed for necessary reference and any possible action at your end.

Thanking you.

Yours faithfully,

(MONALISA BHUJABAL)

Secretary
